

# **Train Masses to find the Few**

Addison – Movements that change the World

Here's a crazy statistic Jeff Sundell shared with us last week at the Community of Practice in Sydney.

For every 300 people he trains, he expects to find one church planting movement leader.

Not just a worker but a CPM leader who take responsibility for fuelling a movement.

Jeff is a local practitioner, but his greatest impact will come through training and mobilising new and existing believers.

His goal is to train 3,000 people this year.

Who are you training?

Who are they training?
